Is there any opportunity that my kid could be selected by FCB club and become a Barça player?

The most important objective of the Celebreight FC summer Camp is to provide the opportunities to every learner to improve their skills and experience, but the camp is not a specialized base for selecting professional players. However, we are very confident that every trainer will get more closer to their dream career as a good soccer player when they leave our camp. We also work closely with Extra-Time, who are based in Barcelona and very experienced in assisting non-EU players to make it in Europe, So for kids who wished to join a European team one day, Celebreight FC is here to help you share your dream.

Will I have chance to meet a FCB player ?

Can I upgrade my accommodation ?

Who will pay for the tour cost of my family?

The family members have to pay the tour cost for themselves.

Yes, It is included. And a shuttle bus service to the airport will be supplied for free.

FC Barcelona museum & stadium

The Camp Nou is a football stadium in Barcelona, which has been the home of football Club Barcelona since 1957. A capacity of 99,787 seats makes it the largest stadium in Europe and the 11th largest in the world in terms of capacity. It has hosted numerous international matches at a senior level, including two UEFA Champions League finals.

La Sagrada Família

The Sagrada Família, Antoni Gaudí's unfinished masterpiece, is one of Barcelona's most popular tourist attractions. It started in 1882, and the construction will continue for at least another two decades, but it has already become Barcelona's most important landmark.

La Rambla street

La Rambla is a street in central Barcelona, popular with tourists and locals alike. A tree-lined pedestrian mall, it stretches for 1.2 kilometers between Barri Gòtic and El Raval, connecting Plaça de Catalunya in the centre with the Christopher Columbus Monument at Port Vell.

Casa Batlló

Casa Batlló is a story itself. The source of inspiration is the Legend of St. Jordi. Sant Jordi was a hero - he saved a beautiful Princess who was about to come to a sticky end at the hands of a dragon who had been terrorising a village. Gaudí was trying to bring the legend into his design, so every detail of the building is ingeniously designed with a special implication.

Park Güell

Park Güell is a garden complex with architectural elements situated on the hill of El Cartel in the Gràcia district of Barcelona. The focal point of the park is the main terrace, surrounded by a long bench in the form of a sea serpent. The curves of the serpent bench form a number of enclaves, creating a more social atmosphere. Gaudí incorporated many motifs of Catalan nationalism, and elements from religious mysticism and ancient poetry, into the Park. And at the main entrance, Gaudí's multicolored mosaic salamander, popularly known as "el drac" (the dragon), is also a world-famous design.
